Stage Setup

(Provided by Franou)

1 Piano	Roland A-49
1 Vocals	AKG D5
1 Dj Desk	vst-Instruments

In order to achieve a sound as highly as possible, please provide a PA system of sufficient for the venue and a powerful feedback-proof monitor system.

General:

Franou uses Steinberg UR22 audio interface to connect her laptop and her AKG D5 microphone. Furthermore, Steinberg UR22 audio interface is connected to Voice Live Play which creates reverb and delay for live performances.

Steinberg UR22 has to be connected to a PA system.

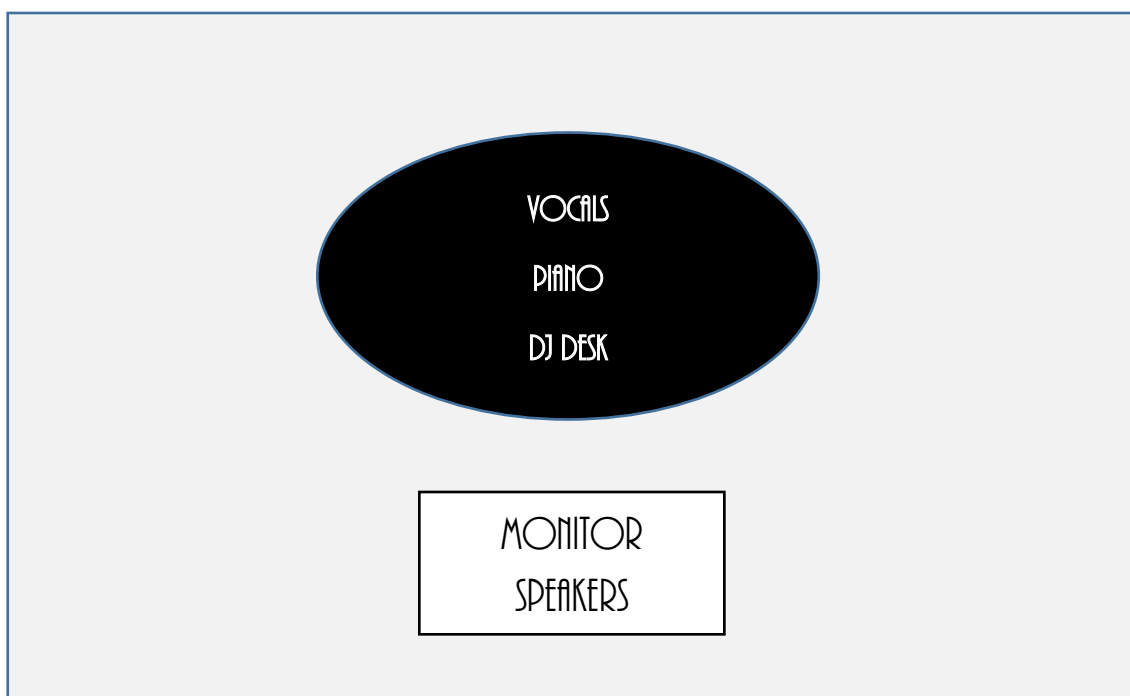

Steinberg UR22 Out: 2x 6,3 mm mono jack input.

Alternative 1: connect Steinberg UR22 to the provided mixer

Alternative 2: connect Laptop via USB directly to the mixer (assumed that the mixer has reverb and delay control)

If there are other performers on the bill, separate channels must be used.

Stage Plan

Additional equipment:

Franou doesn't have a regular engineer, so she depends on the staff-on-site. Franou prefers a bassy sound. However, the vocals should sound natural, soulful and a lot of reverb should be used. Franou will need a minimum of 45 min soundcheck, including setup.

Please provide detailed directions two weeks before the show in English, German or French with the complete address of the venue and telephone contact. Moreover, please provide arrival, soundcheck and on-stage times. The promoter or another person should be at the venue at the arrival time.

Lightning:

It is important that there is sufficient light for the Franou, so she's able to see the clavier. Preferred lightning colours: lilac and blue.

Backstage: A separate room to get some rest before and after the show.

Merchandising

After certain shows, Franou aims to sell her CDs, so please supply a table which can be used as a merchandising booth.

Advertising and Promotion:

Don't hesitate to ask for promotional pictures, logos, etc. Additionally, Franou will promote the event with her own posters, flyers and via social media.
